CAREER OBJECTIVE

An IT graduate with internship experience and strong background in software development. Recognized as a collaborative team player with strong problem-solving and communication skills. Eager to apply academic knowledge and internship experiences in a professional setting, while continuously learning and growing.

TECHNICAL SKILLS

- Languages: JavaScript (Node.js, Next.js, React.js), Typescript, PHP (Laravel), SQL
- Databases: MySQL, PostgreSQL, Supabase, Redis
- Other: HTML5, CSS3, NPM, Vite, RESTful API, Azure, Vercel, Docker, Git, GitHub, GitHub Actions, Jira

EXPERIENCE

Optum | Intern, IT Shared Services Nov 17, 2025 – May 15, 2026

- Created modern and intuitive visuals for Optum TELEscope: a centralized dashboard project for ITSS Core Operations Supervisors using Power BI and Sharepoint, containing telephony performance data and historical trend reports, resulting in an 80% reduction in review time.
- Implemented automated email notification and form validation modules for Project Hanan: a centralized intake portal for Talent Acquisition team using Microsoft Power Apps and Power Automate, resulting in a 60% reduction in processing time.

Asia Pacific College | Full-stack Developer, Team Lead Mar 21, 2024 – Oct 11, 2025

- Led the development team by managing backlogs, facilitating Scrum meetings, reviewing pull requests, and maintaining code quality standards. Collaborated closely with stakeholders to gather, clarify, and align project requirements.
- Designed, implemented, and tested modern and user-centric applications that provides great numbers in process efficiency, data accuracy, sustainability, accessibility and security among clients.

PROJECTS

Content Management and Archiving Platform | Next.js, Node.js, Supabase, Cloudflare, Vercel

- Improved the sustainability and availability of the creative works of students by 90%. Contributed by implementing and testing modules such as content management, browsing, profile, authentication and access control.

National Citizen’s Movement for Free Elections (NAMFREL) Analytics Platform | Next.js, Power BI, Vercel

- Provides timely, accurate and data-driven insights from the 2025 Midterm Elections in the Philippines. Contributed by designing, implementing and testing the frontend, routes and deployed Vercel Analytics and Speed Insights for performance monitoring.

Admission Management System for Elementary and Junior High Schools | Laravel, MySQL, Docker

- Improved the efficiency of managing admission process by 60% and data accuracy by 90% of elementary and high school institutions in the Philippines. Contributed by designing, implementing and testing modules such as application management, email notification, authentication and access control.

EDUCATION

Bachelor of Science in Information Technology | Asia Pacific College Aug 15, 2022 – Aug 5, 2026

- Cum Laude
- 1st Runner Up in the 2025 SoCIT Project Showcase
- Top 3, ANALYTICS 2 Indra: The Effective Data Story Telling

CERTIFICATIONS

- Postman API Fundamentals Student Expert
- DataCamp Certified SQL Associate
- Salesforce Supported Virtual Internship Program
